- Githubs «mission statement»

Code is about the people writing it. We focus on lowering the barriers of collaboration by building powerful features into our products that make it easier to contribute. The tools we create help individuals and companies, public and private, to write better code, faster.

GitHub Bootcamp

1

**Set up Git**

A quick guide to help you get started with Git.

2

**Create repositories**

Repositories are where you'll work and collaborate on projects.

3

**Fork repositories**

Forking creates a new, unique project from an existing one.

4

**Work together**

Send pull requests, follow friends. Star and watch projects.
