# Demo

The image shows a screenshot of a web browser displaying a wiki's main page. The page has a blue header with navigation links: 'home', 'index', and 'calendar'. Below the header, there are links for 'edit' and 'admin'. The main content area features a large heading 'Main Page' and a sub-heading 'Welcome to your new wiki installation'. Underneath, it says 'Where to go from here:' followed by a bulleted list of links: 'Wiki Formatting Demo', 'Firstname Lastname', 'Wiki Help', and 'Help Formatting, Help Tables and Help Links'. A paragraph follows, mentioning 'Tag Trees'. Another bulleted list contains the text 'Enough reading, time for some hands-on. See the edit link in the top left corner? It's time to click it.' Below this is the text 'Have fun!'. At the bottom of the content area, there is a tagline 'tagged as all m main wiki'. The footer of the page is orange and contains the text 'sourceforge.net', 'do good!', and 'about'. A search bar is visible in the top right corner of the page.
